Proceedings of the Twenty-sixth Annual Meeting of the Geological Society of America, held at Princeton, New Jersey, December 30 and 31, 1913, and January 1, 1914; EDMUND OTIS HOVEY, *Secretary*..... 1
Session of Tuesday, December 30..... 4
Election of Auditing Committee..... 5
Election of officers..... 5
Election of Fellows..... 6
Memorial of William M. Fontaine; by T. L. WATSON..... 6
Memorial of Thomas Moore Jackson; by I. C. WHITE..... 13
Events leading up to the organization of the Geological Society of America; by J. J. STEVENSON..... 15
Review of the early history of the Society; by HERMAN L. FAIRCHILD..... 17
History of the Bulletin; by J. STANLEY-BROWN..... 24
Review of the formation of geological societies in the United States; by N. H. WINCHELL..... 27
Titles and abstracts of papers presented in general session and discussions thereon..... 30
Mechanics of formation of arcuate mountains [abstract]; by W. H. HOBBS..... 30
Early Tertiary glaciation in the San Juan region of Colorado [abstract and discussion]; by WALLACE WALTER ATWOOD..... 31
Origin of pillow lavas [abstract and discussion]; by J. VOLNEY LEWIS..... 32
Titles and abstracts of papers presented before the First Section and discussions thereon..... 33
Earthquake sea waves [abstract and discussion]; by HARRY FIELDING REID..... 33
Recent earthquakes in Panama and their causes; by DONALD F. MACDONALD..... 34
Criticism of the Hayfordian conception of isostasy regarded from the standpoint of geology [abstract]; by W. H. HOBBS..... 34
Earth-movements in the Minnesota portion of the Lake Agassiz basin during and since the lake occupancy [abstract and discussion]; by FRANK LEVERETT..... 34
Time measures in the Niagara Gorge and their application to Great Lake history [abstract and discussion]; by FRANK B. TAYLOR..... 35
Illustration of intraformational corrugation [abstract and discussion]; by JOHN M. CLARKE..... 37
Illustrations of the recent exposure of the Saratoga Springs [abstract]; by JOHN M. CLARKE..... 38
An alternative explanation of the origin of the Saratoga mineral waters [abstract and discussion]; by R. RUEDEMANN..... 38
Titles and abstracts of papers presented before the Second Section and discussions thereon..... 39

PUBLICATIONS OF THE GEOLOGICAL SOCIETY OF AMERICA

Regular Publications

The Society issues annually, in four quarterly parts, a single serial octavo publication entitled Bulletin of the Geological Society of America, the edition being 700 copies. A small supply of authors' separates of the longer articles is kept for sale by the Secretary at the prices quoted in each volume.

The Bulletin is sold at the uniform price of ten dollars ($10.00) per volume, with a discount of twenty-five (25) per cent to Fellows of the Society, persons residing elsewhere than in North America, and public and institutional libraries; carriage extra. Subscriptions are payable in advance. Regular subscribers within the United States of America and its possessions receive their parts, postage paid, as issued. Forty (40) cents per volume must be added to the subscription price to cover postage to other countries in the Postal Union.

The price of the index to volumes 1-10 is $2.25 and of the index to volumes 11-20 is $3.50; carriage extra. No reduction is made to dealers. Orders should be addressed to the Secretary, whose address is care of the American Museum of Natural History, New York, N. Y., and drafts and money orders should be made payable to *The Geological Society of America.*

Irregular Publications

In the interest of exact bibliography, the Society takes cognizance of all publications issued wholly or in part under its auspices. Each author of a memoir receives 30 copies without cost, and is permitted to order any additional number at a slight advance on cost of paper and presswork; and these reprints are identical with those of the editions issued and distributed by the Society; but the cover bears only the title of the paper, the author's name, and the statement [Reprinted from the Bulletin of the Geological Society of America, vol. —, pp. —, pl. — (Date)]. Contributors to the Proceedings and "Abstracts of Papers" are also authorized to order any number of separate copies of their papers at a slight advance on cost of paper and presswork; but such separates are bibliographically distinct from the reprints issued by the Society.

The following separates of parts of volume 25 have been issued:
